## Micro Cement

## Concept Tiles

# Life is For Living

At **Concept Tiles** we are guided by the desire of creating versatile ceramic solutions for interior design and architecture. Claddings - on floors, walls, countertops, and steps, are the skin of our homes, and we believe that it is necessary to take care and pay attention to them.

We feel a true passion for good design. We are committed to a material such as ceramics that makes it easier to obtain original and practical resources. Our ultimate objective is customer satisfaction, and we focus the professionalism and thoroughness of our work on this point. We strive in creating products that respond to today's requirements, that are adapted to the users needs, and are in line with the new trends. We are committed to avant-garde design.

## Sustainable Tiles

We work under the criteria of respect for the environment, safety and health at work. This philosophy has led us to be part of the Green Building Council, a non-profit association formed by companies that work to make our environments sustainable and responsible. We ensure safety in the workplace by training our personnel in safety and environmental aspects. Concepts such as energy sustainability are important for the company, and this is demonstrated by the external audits that guarantee our quality seals. All our containers and packaging are recyclable. Even the catalog that you have in your hands, has been designed using FSC papers that support a controlled repopulation of one of our greatest legacies, the forests.

## The Smart Factory

We understand that our parts must be unique and irreplaceable, which is why we have invested in the most advanced systems of production that exist in the market, never before present in the sector.

Looking to the future, we wanted to design a smart material, a product without limitations or restrictions for the most demanding architecture, capable of adapting to the most special projects. The special format of these pieces, up to 120x270cm, allows covering the space from floor to ceiling with a single piece, creating an infinity effect to the eye.

GREEN BUILDING MEMBER / MIEMBRO DEL GREEN BUILDING COUNCIL

## High Performance Tiles

The full body porcelain tile delivers certain advantages vs other collections, without losing all benefits the glaze porcelain offers, its main feature resides in its inside. The raw material that shapes the tile become uniform without any superficial decoration that delivers the same aesthetic throughout the tile, this particularity make it the best fit for all those spaces that demand the most hard wearing materials.

## Ductile®

A Ductile® Piece

## Lighter

Thanks to their slimline 6mm thickness and new formula.

## Swifter

Their new formula offsets surface stress, making any cutting work much swifter and cleaner.  
Su composición evita tensiones superficiales obteniendo cortes rápidos y limpios.

## Easier

The tiles ductile properties make them easy to lay, avoiding the need for expensive tile adhesives.

## Eco-Friendlier

Due to the big reduction in emissions from the manufacturing and transport processes.

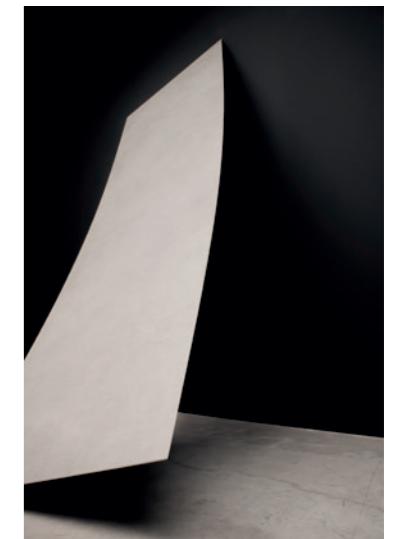

The Ductile® collection stands out for its versatility and simple tile-laying process. A new ceramic material with special characteristics, Ductile® can be used to dress up indoor walls in much swifter, more effortless style. Thanks to the tiles' new chemical formula, they can easily be precision cut or drilled. Standard drill bits and cutting discs and less complex tile adhesives can be used with Ductile®, cutting tile-laying costs and saving on time.

These new 6mm-thick tiles combine all the beauty of **Concept Tiles** collections with new properties guaranteed to simplify the tile-laying process in both new-build and refurbishment projects.

### SME INNOVATIVE / PYME INNOVADORA

The Spanish Ministry for Science, Innovation & Universities rewards efforts in the fields of R&D and innovation.

## Micro Cement

*Micro Cement* has a *contemporary* style and can create minimalist environments. Inspired by the typical microcement polishing and smooth to touch, this collection combines a simple and elegant design with high functionality and measures up to 120x260 cm. The unevenness of natural stone, of the salts, and the watery effects turn into decorative resources, while the very nature of ceramics prevents problems derived from water absorption and efflorescences. Its color choice is a perfect combination of timelessness and trendy colors, which widens the combination capabilities of Contemporary Mixtures Surfaces.

Piezas Especiales / Rejillas de Piscina

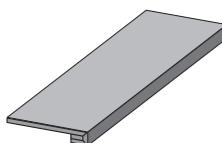

Extra-thick porcelain tiles offer numerous benefits, thanks to their versatility and high resistance. These are properties fully able to meet the tough technical demands and aesthetic requirements of outdoor spaces, public areas, and places subject to high loads or stresses. The tiles can be used in false floor systems, creating raised access flooring that provides easy access to plumbing and electricity networks. They are swift and easy to lay, and the perfect choice for outdoor areas.

El gres porcelánico espesado ofrece múltiples ventajas gracias a su elevada resistencia y versatilidad. Características que responden a las más altas exigencias a nivel técnico y estético que requieren zonas de exterior, áreas públicas y zonas sometidas a altas cargas y tensiones. Permite su ejecución en sistemas registrables, ofreciendo suelos técnicos elevados fácilmente accesibles a instalaciones de fontanería y electricidad. Rápido y fácil en su ejecución, se trata de un material perfecto para el pavimentado de exteriores.

## BATHROOM FURNITURE SERIES

### Special Pieces / Tailored Countertops

Piezas Especiales / Encimeras A Medida

The versatility of our mass colored porcelain pieces allows us to manufacture countertops for bathrooms increasing the decorative options of our lines. The format is customized according to the needs of each client. The measurements and data are recorded in a simple collecting the necessary information for the production of the countertop.

La versatilidad de nuestras piezas porcelánicas de masa coloreada, permite elaborar encimeras para baños aumentando las opciones decorativas de las colecciones. El formato se personaliza en función de las necesidades de cada cliente. Los datos y medidas se anotan en un sencillo formulario que recoge toda la información necesaria para la producción de la encimera.

## Recommendations / Recomendaciones

**Concept Tiles** recommends consulting the norms that regulate the placement of ceramic tiles. It is essential, before any installation, to carefully read the **UNE 138002** and **UNE 12004** standard, and to attend to the specified in order to achieve a correct placement of the ceramic tile. We indicate below, a summary of the most important points to take into account:

ecomienda consultar la normativa que regula la colocación de baldosas cerámicas. Es indispensable, antes de cualquier instalación, leer con detenimiento la norma **UNE 138002** y **UNE 12004**, y atender a lo especificado con el fin de conseguir una correcta colocación de la baldosa cerámica. Señalamos a continuación, un resumen de los puntos más importantes a tener en cuenta:

## Installation Recommendations / Recomendaciones De Instalación

- 1 CONFORMITY OF TONE AND CALIBER OF THE MATERIAL.  
VERIFICAR EL DESTONIFICADO DEL MATERIAL.
- 2 MAKE SURE THAT THE AREA TO CLAD IS CLEAN AND DRY.  
ASEGURAR QUE LA ZONA A REVESTIR ESTÁ LIMPIA Y SECA.
- 3 CEMENT-BASED ADHESIVE SHOULD BE USED FOR EACH TYPE OF PRODUCT; PORCELAIN COLOR BODY OR WHITE BODY.  
UTILIZAR EL ADHESIVO DE CLASE CEMENTO COLA SEGÚN TIPOLOGÍA DE PRODUCTO; PORCELANICO MASA COLOREADA O PASTA BLanca.
- 4 THE AREA TO CLAD MUST BE UNIFORMLY LEVELED. THE USE OF LEVELING SYSTEMS IS MANDATORY FOR A PERFECT INSTALLATION.  
EL USO DE SISTEMAS DE NIVELACIÓN ES OBLIGATORIO PARA UNA PERFECTA COLOCACIÓN. LA ZONA A REVESTIR DEBE ESTAR PERFECTAMENTE NIVELADA.
- 5 A 2 MM MINIMUM JOINT IS RECOMMENDED TO PLACE THE PIECES CORRECTLY.  
SE RECOMIENDA UNA JUNTA MÍNIMA DE 2 MM PARA LA COLOCACIÓN ENTRE PIEZAS.
- 6 THE RECTANGULAR FORMATS CANNOT BE PLACED UNITED TO ANY MORE THAN 1/4 OF THE PIECE.  
LOS FORMATOS RECTANGULARES NO SE PUEDEN COLOCAR TRABADOS A MÁS DE 1/4 DE LA PIEZA.

**THE SLAB INSTALLATION REQUIRES THE USE OF TOOLS AND SPECIFIC TRAINING BY THE INSTALLER. IN ADDITION TO THE ABOVE, THESE ARE SOME OF THE RECOMMENDATIONS TO TAKE INTO ACCOUNT IN THE INSTALLATION OF LARGE TILE FORMATS:**

**LA INSTALACIÓN DE GRANDES FORMATOS REQUIERE DE HERRAMIENTAS Y UNA FORMACIÓN ESPECÍFICA POR PARTE DEL COLOCADOR. A DEMÁS DE LAS ANTERIORES, ESTAS SON ALGUNAS DE LAS RECOMENDACIONES A TENER EN CUENTA EN LA INSTALACIÓN DE GRANDES FORMATOS CERÁMICOS:**

CUTTING DETAIL WITH GUIDE ON SLAB  
DETALLE DE CORTE CON GUÍA SOBRE PLANCHA

THE TILES' DUCTILE PROPERTIES MAKE THEM EASY TO CUT  
LAS PROPIEDADES ESPECIALES DE DUCTILE LO HACEN MÁS FÁCIL DE CORTAR

- 7 THE DOUBLE BONDING TECHNIQUE MUST ALWAYS BE USED.  
SE HA DE EMPLEAR SIEMPRE LA TÉCNICA DEL DOBLE ENCOLADO.

**THE DOUBLE BONDING TECHNIQUE MUST ALWAYS BE USED.**

**SE HA DE EMPLEAR SIEMPRE LA TÉCNICA DEL DOBLE ENCOLADO.**

- 8 THIS MATERIAL REQUIRES THE USE OF C2 CLASS ADHESIVES (BICOMPONENT TYPE S2).  
ES RECOMENDABLE EL USO DE ADHESIVOS CLASE C2 ALTAMENTE FLEXIBLES (BICOMPONENTES TIPO S2).

- 9 THE APPEARANCE OF AIR POCKETS BETWEEN TILE AND SUBSTRATE SHOULD BE AVOIDED BY THE SYSTEMATIC KNOCKING OF THE TILE WITH A RUBBER TROWEL. THIS WILL AVOID TENSIONS AND BREAKS AFTER THE MATERIAL HAS BEEN SET.  
SE DEBERÁ EVITAR LA APARICIÓN DE BOLSAS DE AIRE ENTRE BALDOZA Y SUSTRATO MEDIANTE EL GOLPEADO SISTEMÁTICO DE LA CERÁMICA CON UNA LLANA DE GOMA. ESTO EVITARÁ TENSIONES Y ROTURAS TRAS EL FRAGUADO DEL MATERIAL.

- 10 THE USE OF SPECIFIC TOOLS FOR INSTALLING CERAMIC TILES IS MANDATORY. CONSULT YOUR TRUSTED SUPPLIER TO RECEIVE INSTRUCTIONS ON THE CORRECT HANDLING OF THESE TOOLS AND THEIR NEEDS.  
ES INDISPENSABLE UTILIZAR HERRAMIENTAS ESPECÍFICAS PARA EL ALICATADO DEL GRAN FORMATO CERÁMICO. CONSULE CON SU PROVEEDOR DE CONFIANZA PARA RECIBIR INSTRUCCIONES DEL CORRECTO MANEJO DE ESTAS HERRAMIENTAS Y SUS NECESIDADES.

BIG SLAB INSTALLATION  
INSTALACIÓN DEL GRAN FORMATO

## Cleaning &amp; Maintenance / Limpieza &amp; Mantenimiento

Once placed and grout cleaning equipment is mandatory. Improper cleaning may leave traces of products used in the placement or the protection of the tiles, as cements, resins epoxilicas, grout, waxes or fats. For optimal cleaning after placement for cases of intense and stubborn dirt accumulated over time, and for maintenance, required to use the right products. The following table shows some of the recommendations.

Una vez colocado y rejuntado el material es obligatoria la limpieza. Una limpieza incorrecta puede dejar restos de productos empleados en la colocación o de la protección de las baldosas, como cementos, resinas epoxílicas, material de rejuntado, ceras o grasas. Para una óptima limpieza tras la colocación, para casos de suciedad intensa e incrustada acumulada en el tiempo, y para su mantenimiento, se precisa emplear los productos adecuados. En la tabla siguiente mostramos algunas de las recomendaciones.

## FILACLEANER

Maintenance in general.  
Mantenimiento en general.

## FILACR10

Waste epoxy, vitrified or resin board.  
Residuos de junta epoxi, junta vitrificada o junta resinosa.

## DETERDEK

Waste concrete placement, limescale, metals stripes, oxide deposits.  
Residuos de cemento de colocación, residuos calcáreos, rayas metálicas, depósitos de óxido.

## FILASOLV

Candle wax, tree resins, tape residue, tar residue.  
Cera de velas, resina de árbol, residuos de cinta adhesiva, residuos alquitran.

## FILANOPIANT STAR

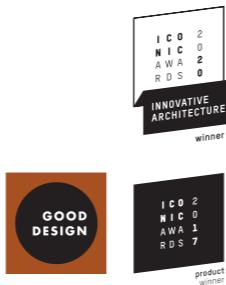

Painted graffiti, spray acrylic, alkyd and synthetic nitros.  
Pintadas de grafitis, spray acrílicos, alquídicos y nitratos sintéticos.

## FILAPS87

Drinks, food, fats, oils, rubber, dyes, marker, acrylic paint drops.  
Bebidas, comidas, grasas, aceites, goma, tintes, rotulador, gotas de pintura plástica.

# CONTEMPORARY MIXTURES SURFACES & SIGNATURE SURFACES

2022 EDITION I / 2022 EDICIÓN I

SME INNOVATIVE / PYME INNOVADORA

The Spanish Ministry for Science, Innovation & Universities reward efforts in the fields of R&D and innovation. This mention is the outcome of the incorporation of state-of-the-art technology to our production plant in order to produce large-format tiles conspicuous for their unique finishes.

El Ministerio de Ciencia, Innovación y Universidades reconoce a Livingceramics la inversión en investigación y Desarrollo de productos diferenciadores en la industria cerámica actual. Se trata de un reconocimiento estatal que verifica la inversión realizada por la empresa en su proceso de producción y búsqueda continua. Galardona así la innovación y el esfuerzo realizado por Livingceramics a la hora de invertir en I+D+i.

Thank you for joining us in our journey. Every detail shows the way we feel design and architecture. If you can feel it in the same way too, our work has been completed.

Gracias por acompañarnos. Cada detalle define nuestra forma de sentir el diseño y la arquitectura. Si tú también lo has sentido, una parte de nuestro trabajo está ya hecho.

## Concept Tiles
