Casa Cemento

Casa Cemento

Mixed of Concrete in Ceramics
Mezcla de Cementos en Cerámica

The essence of the Casa Cemento collection is inspired and represents a mixture of polished cement set with time. The surface of the material has been worked to offer the maximum performance both indoors and outdoors, presenting a material of light and timeless design.

The collection presents formats of great dimension, up to 120x270cm and 90x270cm; these favor the combination with the rest of the collections of the Contemporary Mixtures Surfaces group, for their modularity and the warmth of the chromatic range.
