### **Mediterranean Stone in Ceramics** Piedra Mediterránea Cerámica

*The light and beautiful design of New Stone transmits the serenity of the Mediterranean Sea, as it is inspired by and represents the richness of the warm coastal land. The firm personality of the stone merges with the light design of watery areas, to present a balanced proposal. Thanks to the variety of formats that New Stone presents, up to 120x270cm and 90x270cm, and the extensive chromatic range composed of three natural shades, this series becomes essential within the Contemporary Mixtures Surfaces set due to its versatility and modulation possibilities.*
