## X-CONCRETE

*X-CONCRETE* finds its inspiration in concrete. This collection, part of **Contemporary Mixtures Surfaces**, goes back to the origins of industrial design, **recovering raw concrete** and stressing the result of an open air hardening. The irregular shade surface gives a unique character to the pieces, as it boosts the effect of salts through gloss and matte finishes which create areas full of details and plays of light.

Sizes up to 1200mm x 1200cm in 9mm, and now available in large slabs 2700 x 1200mm in 6mm. Technical features, together with its sober and contemporary colors, make this collection suitable for *residential, commercial* and outdoor projects.

X-CONCRETE Bone 90x90 (36"x36")

X-CONCRETE 90x90 (36"x36") & Lightwood Brown 20x180 (8"x72") & Lightwood Brown Countertop
